

NEW FADE RESISTANT DISPLAY RANGE

ENVIRONMENTALLY CERTIFIED TECHNOLOGY

GREENGUARD

Our fade resistant print technology is certified by UL GREENGUARD for low chemical emissions, demonstrating compliance with key chemical emission standards and a commitment to healthier indoor environments.

ECOLOGO

Our fade resistant print technology is certified by Ecologo for reduced environmental impact. Ecologo Certification is classified as an ISO (International Organisation for Standardisation) Type 1 ecolabel and has been successfully assessed by the Global Ecolabeling Network, further demonstrating its credibility.

ENERGY STAR®

Energy Star is an independent certification agency, which helps organisations acquire machinery that is proven to minimize energy consumption, without sacrificing features or functionality.

EPEAT

An Environmental Performance Assessment Tool which began in 2003 with a stakeholder process convened by the U.S. Environmental Protection Agency has become the leading global ecolabel for the IT sector. The EPEAT program provides independent verification of manufacturers' claims and the EPEAT online registry lists sustainable products from a broader range of manufacturers than any comparable ecolabel.
